### Remarks

#### I. The Office Action

There is some confusion as to the numbering of the pending claims. The Office Action dated January 23, 2004 stated that pending claims 2-35 were renumbered as claim 42-73; however, the Advisory Action dated July 29, 2004 indicated that claims 41-73 were pending. Furthermore, as renumbered with this response, it is clear that claims 41-74 are pending. Also as is clear from the claims renumbered with this response, claims 41-69 are directed to the elected invention of Group I, and claims 70-74 are directed to the withdrawn invention of Group II.

With this Supplemental Response, claims 41-74 are pending, and claims 1, 70-74 (directed to withdrawn invention of Group II) are canceled. Claims 43-69 are amended to provide correct dependence from renumbered claims. No new matter is added with these amendments.

It is submitted that the amendments to the claims, in view of the corrected Terminal Disclaimer submitted herewith, put the claims in condition for allowance. Reconsideration of the claims as pending is respectfully requested.

#### II. Submission of Terminal Disclaimer

The Advisory Action noted that the Terminal Disclosure submitted with the Response dated June 23, 2004 did not properly disclaim the relevant patent term over U.S. Patent 6,316,011. A Corrected Terminal Disclaimer in compliance with 37 CFR 1.321(c) accompanies this Response. Enclosed are copies of previously submitted Statement Under 37 CFR 3.73(b) and assignment documents establishing that MADASH LLC is the current owner of both U.S.S.N. 10/007,184 and US Patent 6,316,011. Also enclosed is a copy of previously submitted check to cover the fee of \$55.00 set forth in 37 CFR § 1.20(a).

#### III. Miscellaneous

It is submitted that the foregoing remarks place the above-identified application in condition for allowance. A favorable Notice to this effect is requested. If there are any questions, please call the undersigned at the telephone number indicated below.
